Hi. I've been trying to get State Parks to test our Torrey Pine trees for aluminum poisoning for 2 years. I finally prepared this VIDEO on the issue and sent it to Darren Smith with a copy to Ingo on Aug 1. As I haven't heard back, I started this online PETITION yesterday to encourage the testing. Please sign my petition and share with others. Guy Fleming certainly would have wanted them tested.

Attached is a study I referred to in the video that isn't free on the Internet, in case anyone wants it.

Dale
